Apeiron is a modern office building, in which we continuously strive to increase the comfort of our tenants. We responsibly select new technologies and their suppliers, and the offer of services is just as key for us. One of the things that we consider when evaluating offers is **the approach of our suppliers to sustainability and to responsible management.**

We are interested in the location, and we try **to contribute to its overall prosperity and to bettering its surroundings.** Similarly, we also give opportunities to charity organisations that have the opportunity of presenting themselves in our premises.

Aside from standard lease agreements, we also offer our future and current tenants the option of concluding a **green lease.**
