# Buildings City West C1&C2

- A modern office building complex in Stodůlky
- A quiet location with great accessibility on Metro Line B - Stodůlky Station
- LEED Gold certificate
- Easy parking outdoors and in underground garages
- Diverse outdoor areas including a Japanese garden
- Great civic amenities
- Option of concluding a green lease beyond the standard contract

## High Functionality and Energy Efficiency

- **27,900 m<sup>2</sup> of leasable surface area**
- **1,500 working spaces**
- **378 parking spaces**

[CITYWEST-OFFICES.CZ/EN](http://CITYWEST-OFFICES.CZ/EN)

The architectonic design of the City West C1 & C2 buildings comes from the architectural studio of AHK Architects. It freely continues in the housing developments and family houses of the neighbourhood, yet it still stands out with its unostentatious design dominated by the motif of a frame. The elegant grey facade with ribbon windows will capture your interest at first glance.

Its timeless design was not the only requisite for the final project. High functionality and energy efficiency were also key. This is also why City West C1 & C2 even became one of the first office buildings in the Czech Republic that were awarded the LEED Gold certificate.

## Premises for Rent Overview

Building	Storey	Leasable surface area (m <sup>2</sup> )	Terrace (m <sup>2</sup> )	Available	Rent (EUR/m <sup>2</sup> )
C1	3 <sup>rd</sup> above-ground storey	2 679	-	immediately	14.50

The prices listed are without VAT.

# City West C1 + C2

## Option of joining storeys

By joining the adjacent premises of the 3<sup>rd</sup> above-ground storey of building C1 and the 2<sup>nd</sup> above-ground storey of building C2, we can create a unique space with a surface area of up to 5,270 m<sup>2</sup> on one storey.

## A Quiet Location with Great Accessibility

- 1 minute from Stodůlky Metro Line B station
- 5 minutes from the bus stop
- 13 minutes from Václav Havel Airport
- 2 minutes from Highway D5 and the Prague Ring Road

The Stodůlky quarter in Prague is exceptional that it combines the hustle and bustle of work, office life, and surrounding nature. Aside from the modern interiors, the City West C1 & C2 buildings thus also offer places to relax, such as, for instance, terraces, the Japanese garden, the nearby park, or an outdoor gym.

The indisputable advantage of this location is its excellent accessibility by metro, by car, and by bicycle. The buildings are located near Highway D5, the Prague Ring Road, and the airport. And so, employees that commute to work by car can easily park in the outdoor and underground garages.

## Technologies and Building Equipment

- 13 personal lifts (2 of them allow for cargo transport)
- Central ventilation system and air conditioning is ensured by a system of induction units for the C1 building and via a FCU for the C2 building
- Local controls of the air conditioning can be found in each office premises
- Individual controls of the outer Venetian blinds
- Double floors in the offices and in the technical rooms of tenants
- Data, telephone, TV, and SAT connection
- Intelligent building management system
- Diesel generator in case of power failure (for the fire safety equipment)
- Central reception desk and 24/7 security service
- Option of ACS access to the leased office areas
- Electronic fire alarm
- Sprinklers in all areas
- Monitoring of the buildings and their surfaces using CCTV

## A Responsible Approach to Sustainability

The City West C1 & C2 buildings are a shining example of what responsible sustainability can look like. This begins with the realisation itself, which meets the strict requirements of the LEED Gold certificate. It continues through the selection of innovative technologies and the assessment of contractors according to their approach to sustainability.

And it even reaches the offer of a so-called green lease, which each tenant can conclude beyond standard lease agreements.
